PROFILE

Electronics and Communication Engineering undergraduate at UIET, Kurukshetra University, with practical experience building software, machine-learning, NLP, generative AI, and data analytics projects. Interested in AI agents and applied engineering; learns by building and participating in technical programs and campus activities.

EDUCATION

B.Tech, Electronics & Communication Engineering — Sep 2025 - Jun 2029 (expected)
UIET, Kurukshetra University
- Building foundations in electronics and communication while developing projects in software, AI/ML, and web development.

EXPERIENCE

Unstop Campus Champion — Sep 2026 - Present
Unstop | Part-time | UIET, Kurukshetra University
- Build campus engagement, collaborate with student clubs, promote opportunities, organize activities, and support Unstop campaigns.

Web Development Team Member — Sep 2026 - Present
Google Developer Groups on Campus | UIET KUK
- Contribute to the campus web development team.

Data Analytics Intern — Aug 17 - Sep 30, 2026
BharatCares | IBM SkillsBuild | AICTE
- Completed a six-week Data Analytics with AI internship with practical exposure to analytics, machine learning, AI, and data visualization.

Industrial Trainee - HVAC — Jul 2026 | 5 days
Daikin Airconditioning India Pvt. Ltd. | Neemrana
- Completed HVAC skill training in AC systems, R-32 refrigerant, inverter ACs, installation, VRV, chillers, equipment testing, and manufacturing.

Machine Learning Intern — Mar 27 - Apr 26, 2026
Navodita Infotech | Remote
- Built an NLP text-classification project using Python and NLTK; applied machine-learning concepts to positive/negative sentiment and spam/ham classification.

PROJECTS

Truth Lens - AI Misinformation & Credibility Intelligence Engine | Python, Streamlit, NLP, ML, LLMs, prompt engineering
Built for the NextGen Innovators Hackathon. Combines text classification, linguistic risk analysis, evidence-aware analysis, and LLM reasoning in an explainable credibility workflow.

JARVIS - Local AI Assistant | Python, Ollama, Playwright, faster-whisper, pyttsx3
Built a Windows voice assistant with local model tool-calling, browser automation, speech input/output, and a background wake-word listener.

Sentiment Analysis Classifier | Python, Machine Learning, NLTK
Built during the Navodita Infotech internship; classifies positive, negative, spam, and ham text.

TECHNICAL SKILLS

Programming: Python, C/C++
Web: HTML, CSS, JavaScript
AI/ML: Machine Learning, AI/LLMs, Generative AI, NLP, Prompt Engineering, AI Prompting, AI Productivity, Automation
Data: Data Analytics, Predictive Analytics, Data Management, Data Visualization, Data Analysis, Microsoft Excel
Tools: Python, NLTK, Google AI Studio, Git, GitHub, VS Code, Streamlit, Ollama, Tavily Search API, Gemini
Strengths: Problem Solving, Critical Thinking, Adaptability, Management, Leadership, Communication, Analytical Skills
